

## Early Intervention: How All the Pieces Fit Together

### Purpose of Early Intervention

To help you learn ways to play & interact with your child to support learning and development.

**YOUR  
CHILD**

**YOU**

**YOUR  
PROVIDER**

### Playful Interactions

Your child learns through play & playful interactions with the important people in their life during daily routines such as meal times & park visits.

### Practice

Each visit with your service provider will offer you opportunities to create and practice intervention strategies with your child.

### Planning

Your service provider will help you plan how to blend these strategies into your everyday routines and you can practice what your child is learning throughout the week.
