Role vs Percentage Responded to Survey

AGREE OR STRONGLY AGREE

The information was practical and useful to me in my work.	97%
I learned about resources that I will now use in my work with families.	92%
This type of professional development worked well for me.	97%
I feel more confident about my knowledge of the topic.	93%
I learned more about practical strategies that I can use.	89%
As a result of this webinar, my knowledge/skills have increased.	84%
The training will have a positive impact on my professional work.	96%

HOW will you use the information you learned?

Participants overall mentioned they will:

- share information with other staff
- be more aware of signs in girls during assessment
- better understand differences in how ASD is presented in girls vs. boys
- better inform families

This was excellent. I will definitely use the information often to help steer families with girls toward an autism assessment when it seems appropriate.

It will help me to be more aware of differences when looking at female children that are showing signs of ASD.

It was the best Talks on Tuesday I have ever watched.

This gave me a lot of good information on how to look deeper into those seemingly typical skills that may be overlooked in girls with autism.
